

## Handwheel

Handwheels are used to manually open and close the valves.

Material: aluminum AK11/steel  
grey iron EN-GJL-250, PN-EN 1561:2000  
ductile iron EN-GJS-500-7, PN-EN 1563:2000

Possibility of making wheels in other configurations of dimensions  $D/s$ .

Valve size (DN)	D	s	Weight
20/25/32/40/50	160/200	14	0,30/0,90
65/80	160/200	17	0,30/0,90
100/125/150	200/250	19	0,70/2,10
200	250/320	24	1,10/2,20
250/300	250/320	27	2,20/3,20
